## VISION

To be a global centre for modern technology for learners with emphasis on learner with hearing impairments.

## MISSION

To equip learners with hearing impairments, with technical knowledge skill and attitude for self reliance.

## BACKGROUND INFORMATION

St. Joseph's Technical Institute for the Deaf, Nyangoma is situated in nyangoma area in Bondo Sub County, in a quiet environment that makes the college ideal for serious training

The institute started inclusive learning programme that gears towards integrating the hearing impaired into the general society. This methodology helps integrate the skilled hearing impaired persons into the general labour market cohesively. In fact, the institute prides itself of being an regional institution that admits students from the East African countries.

The institute offers free Kenya sign language literacy lessons to all its students and staff. This helps to improve communication skills amongst the institute community and main streaming the hearing into the deaf world.
